
File Hide Expert Apk Mod No Ads

Free Download File Hide Expert Apk Mod No Ads - Unlimited Apk Download for Android.n File Hide Expert Apk Mod No Ads - Direct Download Link. Screenshots of Filehide.net - Movies, clips, cartoons, series, games and more. FileHide is an application for any Android device that allows you to hide various files or folders (for a PC user, an Android user or a smartphone). The application has built-in a variety of file protection tools, including the ability to add descriptions to folders and files, copy or delete them, as well as the ability to view hidden files (hidden) and folders, despite the fact that they were not visible to users PC. The hide file is provided as a simple and clear "mask" that hides the user's files and folders and hides them from prying eyes. In the program settings, you can enable the following functions: In the "Adapter" menu, where you can configure settings such as location or viewing, in "Data Sources", where you need to enable settings such as storage, access rights, etc .; In "Options", where you need to enable settings such as position, viewability, view, resolution, etc .; Autohide in "Options", where the user can configure the following settings: display files, folders, etc., hidden from prying eyes; In the "My Documents" and "Hide files and applications" sections, where users need to use such settings as hiding from search engines, from PC users, as well as set the parameters for different categories of files, such as: music, video, photos, etc. . d.; After all the settings, you can activate or deactivate the following options: Hide the entire widget, menu, "Private" button and some other hiding options; To enable or disable the hiding of a folder or file, it must be placed in a hidden location in the device's memory, where it will be visible only to the application. There are several ways to use this program, these are: Download free version on PC; Download the version available in the app store; Install the free application "Filehiding" through the Play Market. To use all these methods, you need to download File hide apk for Android. After the application is downloaded, you need to run it and install it. If you want to download on android
