An image editor is an imaging tool that manipulates an image, or any other digital media. Figure 10-1 shows the tools that you can use to create, edit, and manipulate digital images. Figure 10-1: The tools available in Photoshop CS5 are used to crop, enhance, and manipulate your image. How do you design a workflow to get the most out of Photoshop? Beginners should consider setting up their workstations and set up some basic workflows before learning Photoshop. The rest of this chapter outlines some basic methods for using Photoshop; more detailed instructions on using Photoshop's tools are found in Chapters 3 and 4. ## Get Up to Speed: Photoshop Fundamentals Before delving deeper into Photoshop, you need to get familiar with the basics. Here are some of the essential tools you'll use as you progress: * **Layer:** A layer is a collection of individual pixels that you can view and re-arrange, either separately or together. * **Layer mask:** A layer mask enables you to edit individual areas of your image without changing everything else. * **Clone stamp:** A clone stamp is an object or a group of objects that you can copy and paste, with the original being the source. * **Brush:** A brush is a hand-painted effect. * **Correct:** An image correction tool that allows you to correct photos in various ways: reducing red-eye, correcting for exposure, and adjusting the contrast, color, or brightness. * **Filters:** Filters are special effects that you can apply to your image. * **Gradient:** A gradient fills up a specified area of an image with a specific color. * **Layer:** A layer is a collection of individual pixels that you can view and re-arrange, either separately or together. * **Layer Mask:** A layer mask enables you to edit individual areas of your image without changing everything else. * **Free Transform:** The Free Transform tool allows you to change an object's size, shape, or location. * **Layer Mask:** A layer mask enables you to edit individual areas of your image without changing everything else. * **Layer Comp:** The Layer Comp tool allows you to set the blend mode for a given layer and control the opacity of the layer. * **Layer

Pages Saturday, October 28, 2011 We've been taken the tour of the new Disney on Ice production of Frozen presented by Toyota that is premiering tonight, October 28th, 2011. We waited in line for about 2 hours to see the first show at the Arena in Milwaukee, Wisconsin at 7:00pm and it was a very cold night and a great show!! Elsa and Anna from the Disney film Frozen come to life in this new ice theatre show in which Queen Elsa of Arendelle has been isolated from the outside world and kept captive. There are 4 new songs on this show including the hit song "Do You Want to Build a Snowman" and last night's song was "Let it Go" (from the movie) performed by Demi Lovato and fans can see them live on stage. So excited to see this beautiful show now and we already can't wait for the next show!!Q: How to add import issues and other build issues to Phing build file? Phing is a build system, which is very popular now-a-days. What do we need to import in the project build file, and what do we need to add in the build file for other build issues (such as missing sources, binary incompatible, etc)? I am asking these as in how Phing builds a project, which is then executed by Ant. A: See Php Console, Phunit! They are good examples of how to write build scripts. Q: How to access the contents of a Dictionary (Dictionary)? I'm using the following code to access the contents of a dictionary, Dictionary dict = someClass.GetDictionaryFromServer(); ... string key = ".../..blah/blah/key"; T value = dict[key]; I get the following error (Type being something that isn't nullable) cannot convert from 'System.Collections.Generic.Dictionary`2[System.String,System.String]' to 'System.Collections.Generic.ICollection`1[System.String]'. Can anyone tell me how to fix this? A: Either use the generic version of the dictionary: T value = dict.TryGetValue(key)? dict[key

Q: How can I use PIL to get jpeg/png data out of a Wordpress page? How can I use PIL to get jpeg data out of a Wordpress page using Python? I'm currently stuck using Python 2.7, so I can't use the module I'd like to use. How do I import PIL without an internet connection? A: The command for importing PIL is: python -m pip install PIL This can be done in Terminal. Can't comment so adding this as an answer. If you would like to download the installation file, just right click here and choose Save Target As. Just connect the camera and start scanning! And there you go... There are other ways to do it, of course: if you don't feel comfortable with the web-based Scanner, you can also install the Scanner app directly. But you can always download the installation file for the scanner, and use it for free (as long as you are not a paid/registered user of the official CloudScan app): click here to download it (all you need is an Android phone or tablet; free for Apple users). That's it! You can use this scanner manually, or integrate it in your own apps. If you need some help, check out this quick tutorial on how to integrate CloudScan in your Android app.The effects of early alcohol exposure on operant responding and central dopamine, noradrenaline, and corticosterone function in adult male rats. The effects of early alcohol exposure on the schedule-controlled behavior of adult male rats were examined. Fifteen-day old rats received daily alcohol treatment for 14 days. By the end of the exposure period, the alcohol treated animals (0.10, 0.20, 0.30, and 0.40 g/kg) were significantly less active than the controls (P less than 0.05) when tested using 3 different operant chambers. They were also less active (P less than 0.05) in the home cages when tested using an automatic activity monitoring system. The 0.40 g/kg alcohol treated rats were significantly more sensitive to the reinforcing effects of both cocaine and morphine than the controls. The effects of early alcohol exposure on the levels of dopamine, norepinephrine, and corticosterone in the nucleus accumb
